THE SCENARIO**

2015 OMFRC Provincial Competition AMFR/PRO Scenario 1

CASUALTY SIMULATORS INFORMATION Scenario : “Patio Party-time ”

(BACKGROUND – NOT TO BE SHARED WITH COMPETITORS)

Total Patients: 2 – both in normal street clothes. - Location: Dorm Patio

2 athletes staying in the same dorm decided to ‘wash away their sorrows’ from loosing their events. They have been drinking while using the facilities BBQ. What should have been a relaxing night has now turned to a fight between the two. Pushing and shoving led to (1) athlete being bushed backwards into the hot BBQ and causing 2nd degree burns on their entire back and piece of broken glass and cuts their arm creating a 5” laceration down the length of their backside of the Right upper arm = moderate bleeding.

The (2) athlete becoming so distraught over causing the injury to his friend that he is upset (crying) when the crew arrives. Upon investigation, the crew learns that this athlete also took some pills with the 26er of alcohol they drank. Crew will find a rx bottle of trazodone 200mg, once at bedtime, 30 tabs, 12 days into rx and Seroquel 400mg, twice daily, 60 tabs, 12 days in and all are gone. **Crew must figure out how many of each they took to get points for call to Poison Control. (General Information was gathered from Ontario Poison Control Educator: Heather Hudson 1-416-813-1061.)

- SEROQUEL MISSING = 36 tablets of 400mg each
- TRAZODONE MISSING = 18 Tablets of 200mg each

NOTE:

- There will be a 3 minute warning to the judges to signify the end of the primary survey.
- There will also be a 2 minute remaining signal for the team’s benefit.
