### 2015

## St. John Ambulance Zone Competition

#### **TEAM SCENARIO - SFA**

### Scenario 2 - "GOFER the Glory"

### **Background Scenario**

You and your team are Providing First Aid Services for the annual local fair.

You are called to assist at an accident on the BMX Bike Aerial Demonstration Track.

You have 20 minutes to complete the scenario, Good Luck!!

There will be a 3 minute warning signify the end of the primary survey.

There will also be a 2 minute left signal for the team's benefit.

# THIS PAGE IS GIVEN TO TEAMS AT THE BEGINNING OF THE SCENARIO

#### **CASUALTY SIMULATORS INFORMATION**

Scenario: "GOFER the Glory"

(BACKGROUND – NOT TO BE SHARED WITH COMPETITORS)

While performing their fancy, high flying BMX Bike tricks at the annual local fair, a BMX bike rider is making their way around the course with relative ease. The cyclist picks up speed as he is about to climb a half-pipe which will propel him in the air for an aerial maneuver landing on the track below. However, something goes wrong and he loses his grip on the handlebars during the jump. The rider falls to the hard track below, a distance of approx. 20 feet.

While watching the emergency scene unfold, a spectator grabs for their open can of soda pop, which a bee has decided to partake in. While sipping the sugary drink, the spectator is sung in the mouth and develops an anaphylactic reaction. The patient does have their epipen (trainer) with them if asked. While trying to attract the attention of the team for help, the patient trips on a gofer hole in the grass and falls to the ground. They are sitting nearby to the first patient holding their ankle while experiencing their life threatening reaction.

#### NOTE:

- There will be a 3 minute warning to the judges to signify the end of the primary survey.
- There will be a 10 minute warning to the judges to signify the entrance of the second patient.
- There will also be a 2 minute remaining signal for the team's benefit.

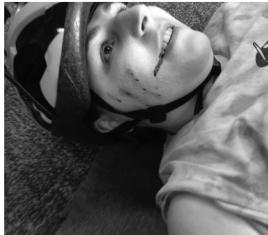

#### PROPS (Per Scenario/Team)

- 2 Casualties: 1 dressed in Bike Clothes/shorts, 1 dress in regular clothing.
- 1 BMX bike
- 1 BMX helmet
- 1 Epi-Pen trainer
- Medical Alert Bracelet ("Allergy: Bees")
- Empty Can of Soda Pop
- First Aid Kits
- PCRs

#### **CASUALTY SIMULATORS INFORMATION** ~ "GOFER the Glory"

#### <u>Casualty 1 – BMX Rider:</u>(lying semi-prone on ground)

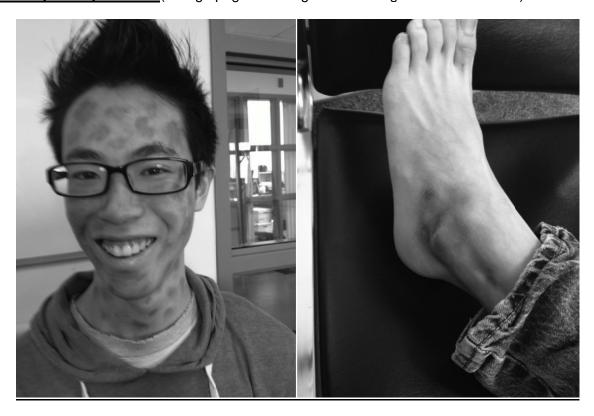

Information	Casualty Simulation Required
Semi-conscious and breathing	<ul> <li>Patient keeps asking questions about "what went wrong?"</li> </ul>
	<ul> <li>Responds to questions slowly with brief, incomplete answers.</li> </ul>
Possible head and spinal Injury	<ul> <li>Wearing BMX helmet</li> <li>Small amount of blood draining from mouth (just enough to suggest injury, but not damage helmet interior.)</li> </ul>
Closed RIGHT Upper arm fracture	Swelling     Bruising
Closed RIGHT femur fracture (mid thigh)	<ul><li>Swelling</li><li>Bruising</li></ul>
Abrasions to right face	Minor scrapes/ minor bleeding.
Shock	<ul> <li>Pale, cool, sweaty skin</li> </ul>

### SAMPLE:

- Allergies = none
- Medications = "just vitamins" Medical history = none, healthy.
- Last Meal = breakfast

#### **CASUALTY SIMULATORS INFORMATION** ~ "LIGHTING UP DOWN"

<u>Casualty 2 – Spectator:</u>(sitting upright on the ground holding their twisted ankle)

Information	Casualty Simulation Required
<ul> <li>Anaphylaxis</li> </ul>	<ul> <li>Difficulty breathing (wheeze)</li> </ul>
	<ul> <li>Red blotches over face, arms,</li> </ul>
	chest/abdomen.
<ul> <li>Closed fracture LEFT ankle</li> </ul>	Swelling
	<ul> <li>Bruising on outside of ankle on</li> </ul>
	bumpy part (lat. Malleolus)

#### **HISTORY:**

- Casualty was watching show when rider fell. Watched as first aid was rendered to BMX rider Took a drink from an open can of soda pop, "must have had a bee in it." And stung in mouth. Developing SOB, Wheeze.
- Went to get help from first aid team and tripped in a gofer hole, twisting LEFT ankle. = Pain.
- Patient has Epi-pen (trainer) and willing to have team help with it.

#### **SAMPLE:**

- Allergies = Bees and Tylenol
- Medication = Epi-Pen (trainer)
- Medical History = None, healthy
- Last Meal = Breakfast

#### JUDGES' PROMPTS

TIME:	PROMPT:
0 minute –	"Casualty 1 – Bike Rider" lying prone on floor
(Scenario begins)	with bike nearby.
3 minutes	END OF PRIMARY SURVEY MARKING
10 Minutes	"Casualty 2 - Spectator" falls to floor in front of team.
18 minutes	2 minute Warning for team
20 minutes	END OF SCENARIO

#### **VITAL SIGNS:**

#### **Casualty 1: BMX Rider**

	1 <sup>st</sup> SET	Post Treatment	Further Set
RESP.	24shallow	18 full, regular	18 full, regular
PULSE	106 weak/regular	100 strong/regular	86 strong / regular
SKIN	Pale/ cool / Dry	Pale/ cool / Dry	Pale/ cool / Dry
LOC	Conscious	Conscious	Conscious
PUPILS	3 mm reactive	3 mm reactive	3 mm reactive

Allergies: None

**Medications:** Just Vitamins

Past Medical History: None, healthy

Last meal: Breakfast

Events: "What went wrong?"

#### **Casualty 2: Spectator**

	1 <sup>st</sup> SET	Post Treatment	Further Set
RESP.	28 shallow, wheezy	20 shallow, reg	20 shallow, reg
PULSE	120 weak /regular	80 full/regular	80 full/regular
SKIN	hives/cool/ dry	Pink/Warm/Dry	Pink/Warm/Dry
LOC	Anxious	Conscious	Conscious
PUPILS	3 mm reactive	5 mm reactive	5 mm reactive

Allergies: Tylenol, Bee stings

Medications: Epi-Pen

Past Medical History: None

Last meal: Breakfast

**Events:** drank from soda, stung in mouth by bee.

Came for help and tripped in gofer hole.
