**CASUALTY SIMULATORS INFORMATION - Scenario #3 @ REZ*****(BACKGROUND – NOT TO BE SHARED WITH COMPETITORS)***

**Overall Scenario for the event:** It has been a wet season so far in 2016, which has lead to heavy rainfall and a number of communities forced to evacuate the flooded areas to central locations as temporary shelters. The University of Ontario has been transformed into one such evacuation center. The teams are providing on site first aid and infirmery coverage to the over 2000 displaced people at this site in the GTA. Through out the day, teams will be assigned different “posts” to monitor and provide coverage.
